

NAME

rf – RF11/RS11 fixed-head disk file

DESCRIPTION

This file refers to the concatenation of all RS-11 disks.

Each disk contains 1024 256-word blocks. The length of the combined RF file is $1024 \times (\text{minor} + 1)$ blocks. That is minor device zero is 1024 blocks long; minor device one is 2048, etc.

FILES
