

NAME

stime – set time

SYNOPSIS

(stime = 25.) (time in r0-r1)

sys stime

stime(tbuf)

int tbuf[2];

DESCRIPTION

Stime sets the system's idea of the time and date. Time is measured in seconds from 0000 GMT Jan 1 1970. Only the super-user may use this call.

SEE ALSO

date(I), time(II), ctime(III)

DIAGNOSTICS

Error bit (c-bit) set if user is not the super-user.
