

NAME

vt – display (vt01) interface

SYNOPSIS

openvt()

erase()

label(s)

char s[];

line(x,y)

circle(x,y,r)

arc(x,y,x0,y0,x1,y1)

dot(x,y,dx,n,pattern)

int pattern[];

move(x,y)

DESCRIPTION

C interface routines to perform similarly named functions described in vt(IV). *Openvt* must be used before any of the others to open the storage scope for writing.

FILES

/dev/vt0, found in /lib/libp.a
