

**NAME**

tiu – Spider interface

**DESCRIPTION**

Spider is a fast digital switching network. *Tiu* is a directory which contains files each referring to a Spider control or data channel. The file */dev/tiu/dn* refers to data channel *n*, likewise */dev/tiu/cn* refers to control channel *n*.

The precise nature of the UNIX interface has not been defined yet.

**FILES**

*/dev/tiu/d?*, */dev/tiu/c?*
